

## RELEASE//21, EMULATION TECHNOLOGY'S NEW CATALOG

ET's new easy to use, full-line catalog provides engineers and test managers the means to quickly solve problems and get back on track. The catalog compliments ET's online store, providing engineers with the solutions they need.

"The engineering professional's link to technical literature"

## TEST & MEASUREMENT ACCESSORIES

Broad line of over 12,000 high quality test and measurement products that solve application problems in the electrical, electronic, industrial, automotive and medical fields. Product line includes test leads, adaptors, connectors, DMM kits, probes, nail clips, cable assemblies, and coaxial test accessories. Custom manufacturing is available. Selling direct, since 1956.

## BATTERIES SHORT FORM CATALOG WITH TECHNICAL DATA ON CD-ROM

Panasonic's broad line of battery sizes and chemistries is condensed for review in this new 16-page, 4-color catalog with technical data and company overview on enclosed CD-ROM. Batteries covered include NiCd, NiMH, Lithium, Li-ion, VRLA and Alkaline. Easy-to-use tables give technical specifications for model numbers.

## RAPIDLY CREATE TEST, MEASUREMENT AND CONTROL SYSTEMS WITH LABVIEW

NI LabVIEW is the graphical development environment for creating flexible and scalable test, measurement, and control applications, rapidly and at minimal cost. With LabVIEW, engineers and scientists interface with real-world signals, analyze data for meaningful information, and share results and applications. Take a FREE online guided tour. Visit [ni.com/info](http://ni.com/info) and enter **ebpk4g**

## MILL-MAX'S DESIGN GUIDE NOW AVAILABLE ON CD ROM

Mill-Max, is the leading US manufacturer of precision-machined interconnect components. CD includes our most up-to-date:

- Catalog PDF Pages
- New Product Information
- Plant Tour
- Links to our Website

Visit [www.mill-max.com/respond](http://www.mill-max.com/respond)

Response Code: EDN555

## EMBEDDED HARDWARE SOLUTIONS

Tri-M Engineering continues to maintain a leading role in the creation of hardware solutions for Embedded Systems. From our Port Coquitlam facility, Tri-M specializes in the design and production of DC to DC Power Supplies, Relay Boards, CPU Boards and Hostile Environment Enclosures, on time and on budget.

## GRAPHIC OVERLAYS & MEMBRANE KEYPADS

Amazing design options are now possible with NFi's unique full color applied graphic products. With our Design Guide, you'll discover special features to enhance the function and appearance of your products! Receive samples from an ISO Certified company:

- Filtered LED/LCD Windows
- Serial Numbers • UL/CSA Markings
- Urethane Doming • Keypad Embossing
- Laser Cutting • Prototyping

## SURGE PROTECTION

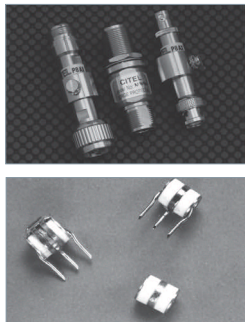

- COAXIAL Surge Suppressors for PCS, GPS, RF Equipment
- AC Protector UL1449
- DC/DATA Line Protectors

- Surge Arrester Gas Tubes
- Voltage from 75V To 2500V
- Available in Surface Mount

## FIBERGLASS LAMINATED EPOXY 1557C READY-TO-USE SHAPES

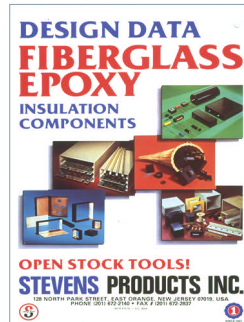

Design data pamphlet features materials, properties, and tolerances for glass epoxy components. It shows designers how to specify from open stock tools, their critical requirements for potting forms, bobbins, coil forms, structurals, and circuit board manufacturing aids. It is ideal for any electronics manufacturer looking for high reliability glass epoxy shapes.

### Stevens Products, Inc.

128 N.Park St., E. Orange, NJ 07017

973-672-2140

FAX: 973-672-2837

## AC POWER DISTRIBUTION & CONTROL SYSTEMS

Product is rack or strip mounted with: Circuit Breaker Protection, EMI/RFI Filtering, Spike/Surge Protection, Remote Power On/Off, Remote Reboot, Emergency Shutdown, Redundant Power, Sequential Power Up/Down and power regulation Agency systems. ISO 9001:2000 Certified.

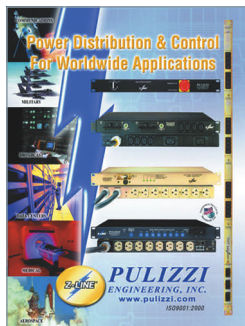

### Pulizzi Engineering, Inc.

3200 S. Susan St., Santa Ana, CA 92704-6839

Sales: 605-334-8999 or 800-870-2248

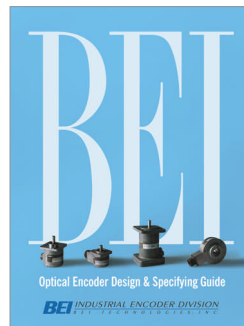

Fax: 605-334-2611 E-mail: [sales@pulizzi.com](mailto:sales@pulizzi.com)

Web Site: <http://www.pulizzi.com>

## DESIGN GUIDE FOR OPTICAL ENCODERS

This Guide provides a comprehensive summary of optical encoders, accessories and interface electroNics. Included are design examples, absolute and incremental encoders, shafted and hollow-sections include hazardous environments. Call 1-800-ENCODER or visit our web site at [www.beiied.com](http://www.beiied.com).

## SINGLE BOARD COMPUTERS

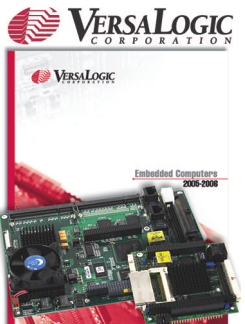

PC/104-Plus, EPIC, and EBX embedded computers feature processors from 586 to Pentium M. Ideal for OEM applications. Benefits include extended temperature operation, industrial I/O, 5-year product availability guarantee and outstanding warranties. Voted a "Platinum" embedded board vendor (VDC surveys, 2002-2005). Request a Free 2005/2006 catalog.

## MULTI-AXIS, MULTI-MOTOR MOTION CONTROL ICs

PMD, the leader in IC-based motion, introduces the Magellan™ Family of Motion Processors. Available in 1- 4-axis versions these flexible, programmable chips control DC brush, brushless DC, microstepping and pulse & direction motors. Magellan was specifically designed to lower your production cost, improve your performance and simplify your design. Contact us at 781-674-9860, or visit [www.pmdcorp.com](http://www.pmdcorp.com) for more information.

## TEKTRONIX AFG3000 SERIES

At latest count, five top trade publications have recognized the new Tektronix AFG3000 Series Arbitrary Function Generators as a new benchmark in performance and value. From its large oscilloscope sized color screen to its category leading price, the AFG3000 Series blows the competition away.

Go to [www.rselectronics.com/afg.aspx](http://www.rselectronics.com/afg.aspx) to find out for yourself what it can do.

## OPTIMIZING HYBRID ELECTRIC VEHICLES WITH FUEL CELL POWER

With the automotive industry's push towards developing EVs and HEVs, there still remains the fundamental problem of finding a consistent energy storage technology. Advancements in fuel cell technology have spurred the development of ultracapacitors. This white paper explores the use of ultracapacitors within existing hybrid electric vehicle system design.

## FREE PRINTED CIRCUIT BOARD DESIGN AND LAYOUT GUIDE

A free engineering resource guide that provides information and data on PCB design and layout for SMT, Axial, and Through Hole. The guide contains information such as hole span requirements, component considerations, pad geometries, electrical clearance, and mechanical hardware. The guide also includes guidelines on component placement, spacing, and orientation. The guide has many charts, figures, and illustrations.

Electronic Technologies International, Inc.

## FAN AND MOTOR SPEED CONTROLS

Catalog describes Control Resources' line of SmartFan speed controls and alarms including AC/DC speed controls, fan failure and temperature alarms, VariCool fan trays, thermal analysis services and custom control design and manufacturing capabilities. Benefits include acoustical noise reduction, power savings, environmental (temperature, pressure, humidity) regulation, increased safety and improved system reliability.

## 1 WATT SIP 3000VDC ISOLATION

Polytron Devices, Inc. offers a complete series of 1 watt DC/DC converters with a high isolation voltage of up to 3KVdc. Housed in a SIP package, (0.77" X 0.40" X 0.24"), these units are available in single and dual output voltages. For more information on this or any of our other models of DC/DC Converters, Linear Power Supplies, Switching power supplies, or UPS, please visit: [www.polytrondevices.com](http://www.polytrondevices.com)

## HIGH VOLTAGE CONTROL, MEASUREMENT & SAFETY DEVICES 208V TO 1000KV, DC TO 10MHZ

This 8-page brochure features a range of high voltage devices designed and manufactured by Ross Engineering Corp. Products include HV Relays, HV Dividers and Probes, HV Circuit Breakers, HV Power Class Voltmeters, HV Digital Multimeters, Fiber Optic Systems and much more. Lab, Industrial and Military applications.
